2082
Diploma in Computer Engineering
Data Communication and Computer Network

1. Explain Transmission impairment. Describe the block diagram of communication system.
2. Differentiate between MAN and WAN. Explain OSI referent model.
3. What is a public switched telephone network? Explain fiber optic cable with its applications.
4. What is forming? Explain the issues of data link layer.
5. What is Ethernet? Explain ALOHA and VLAN.
6. Calculate network address, usable host address number of subnets and boardcast address for a network of 192.168.1.20/26
7. Explain quality of service. Differentiate between TCP and UDP.
8. What is PoP3? Differentiate between HTTP and HTTPs.
9. A. What is a Router? Describe the Client-server model with figure

B. What is IP Address? List the types of IP Address.

10. Write notes:

a. DNS

b. HDLC

c. Guided media

© Ramit Pariyar

d. Analog Data Trasmission

e. Properties of secure communication
